

MVCA 2009

NATURE CAMP

The **Musconetcong Valley Community Association** is pleased to offer an outdoor nature summer camp program for children ages 4-6 years old. Our program is located near the tennis courts at Rock Spring Park in Long Valley. The program offers our youngest campers an opportunity to enjoy nature based activities, arts and crafts, story time, and guest speakers. In addition to our two-week geographical theme, we will explore wildlife native to New Jersey. Local field trips are planned each session. Our groups are limited to twelve children. Sessions last for two weeks. You may sign up for a six day program (M,W, F) or a four day program (Tu, Th).

Wildlife of New Jersey
